

SYSTEM B

PDF

Ultrasound systems are the perfect way to simplify complicated audio setups.

Each of our systems includes everything you will possibly need to make your event a success with a professional plug and play audio system. System B is the ideal system for small to medium sized crowds.

System B is equipped with a built in DVD player, MP3, Cassette, and even Karaoke hookups. First time users or experienced professionals will find that System B is well thought out and includes all of the essential elements with the ability to upgrade or expand the system as needed. One wireless microphone is included with a stand and boom for speeches and presentations. After the event is over simply fold away and lock up your pre-assembled crate and tuck it away neatly in a closet or storage area.

All of the components that comprise our systems are commercial grade quality, no off the shelf consumer or home audio equipment is utilized.

Standard configuration equipment rack includes:

- One professional 1000 watt powered 8 channel mixing board with built in effects and EQ
- One professional rack mounted combo CD/CASS player with pitch control
- One professional rack mounted DVD player with Progressive scan
- One professional rack mounted UHF wireless microphone with 200 selectable user channels
- One professional rack mounted power supply/conditioner with two pull out work lights (perfect for operating equipment in dark environments)
- One ultra quiet cooling fan to keep equipment cool even in the most demanding hot weather conditions
- One Ultrasound Audio custom patch panel for easy cable connections (1 AC inlet, 2 Speakon speaker outputs, 1 RCA type video output)
- Locking 3" ball bearing casters for easy mobility and secure placement
- Two recessed handles
- Protective black metal corners
- Custom carrying slot for speaker and mic stands

All custom speaker cabinets include the following:

- One high-powered 12" professional load speaker
- One 3" High/Mid compression driver
- One 70 x 50 horn with 1" throat for consistent even audio coverage
- One high-power cross-over specially engineered to give you the most natural sound and highest output
- Custom speaker grill which protects not only the woofer but the horn as well
- Two sets of Speakon speaker connection for easy connection and daisy chaining of extra speaker cabinets (available separately)
- Speaker cabinets lock on top of equipment rack for easy transport when not in use.
- Pad-lockable latches for maximum security and keeping unauthorized users out
- Available in black or grey carpet
- Custom school logo silk screening available on speaker grilles
- Easily add an extra wireless mic, CD recorder, AM/FM tuner, sets of speaker cabinets, or anything you can think of – just ask at the time of order
- 3 Year warranty on electronic components
